

SIGNATURE SERIES

PRO BARBELL RACK

G236

PVC Abrasion-Resistant Bar Holder Protectors

Heavy Gauge Steel Construction

Horizontal Configuration

Wide angled, A-frame Design

Durable Powder Coat Finish

Rubber Feet Protects Floor

Our G236 Signature Series Pro Barbell Rack fits any combination of 10 EZ Curl or Straight Pro Dumbbells ranging from 20 to 110 lbs. Made with gauge steel construction, this rack is extremely heavy duty and can hold over 1000lbs in total. The rack's horizontal configuration allows for easy user access, which helps prevent users from injuring themselves while picking up or putting back a heavy barbell. The rack's E wide angle and A-frame design also provides maximum stability.

Our pro barbell rack features rubber feet on its base, which protects user's floors from becoming damaged. This rack includes a powder coat finish and PVC bar holder protectors, making it durable and abrasion resistant. PVC is also supreme due to its resistance to weathering, chemical rotting, shock, and corrosion.
