

14 Mounting Points

Extended Overhanging  
Pull-Up Bar  
with Rock Climbing Grips

# SMITH MACHINE

VFCR1701B

Our BodyKore VFCR1701B Smith Machine is an innovative counter-balanced commercial grade machine that is attachable to our Full Linx Rack Modular System. The counter-balanced smith machine counteracts the weight of the bar which allows you to lift the true weight of the weight plates you put on the bar without any extra math to factor in the weight of the bar.

Commercial grade Guide rails prove ultra-smooth and natural movement. The included Smith Machine bar features grip knurling for a solid-yet comfortable-feel. Re-rack your Smith bar with ease into any height position you need. Includes safe-lock and release mechanisms with safety catches so you can max out your training load without needing a spotter. 3 shelving trays included in the back to organize your space and an extended overhanging pull-up bar gives the system an added bodyweight training function.
